Dear Tracey,

Thank you so much for your wonderful performance at our inaugural Workplace Health, Safety and Wellness Conference in Kelowna on September 17, 2007. It was very professional, highly energetic and very entertaining for the 250 delegates in attendance. Your ability to engage the crowd, make it interactive and cause all of us to have lots of laughter was much enjoyed by all.

We have had many great pictures of our colleagues on stage with you having a great time which of course leads to lots of good stories.

Your impersonations of the 8 divas was realistic, very well done while being professional to their own specific styles and a resounding success for the crowd.

I look forward to future opportunities to showcase your talent – you were amazing.

Sincerely,

Carole Taylor
