

January 4, 2007

Dear Tracey:

Thank you so much for performing at our wedding on November 4, 2006, it made the day completely memorable for everyone. We thought your performance was great and we got so many positive comments from our guests.

We saw you perform just over a year before we got engaged and loved the show. Once we started planning the wedding we knew we wanted to have you there. Our goal was to make the wedding really fun for everyone, especially since we had so many guests coming from far away.

Most guests commented on the wedding and your part at the reception, saying it was one of the most fun receptions they'd been to. It was great seeing people's reactions to your first act, Janis Joplin, as we didn't tell anyone about the entertainment (not even our parents). As well, when the first dance started, after your performance was over, I think everyone got up and danced which does not usually happen at weddings. Your performance helped get everyone in the mood for dancing and having a good time, which is hard to do after speeches and dinner.

Thanks again for the great show and we both want to repeat our wedding some day, so we'll keep your number.

Best regards,

Calum and Lorraine McClure
