*To Whom It May Concern:*

*It is my sincere pleasure to commend Tracey Bell on her professionalism and dedication to the Arts. As an event planner for Culinary Capers Catering, I have had the wonderful opportunity to hire her this past year to perform at two very high end events. Most recently in November 2004 at Harrison Galleries and prior to that was a Casino night on a yacht in January 2004. Within second of her presence, she seems to captivate her audience and has their undivided attention through out her performance. In combination with her incredible celebrity impersonations, she also incorporates group interaction and the crowds just go wild.*

*I personally come from a performing background and understand the dedication and time it takes to reach her level. She is an extreme talent that should be recognized. I would not hesitate to hire her again and highly suggest she be considered for "Performer of the Year".*

*Sincerely,*

*Molly Stevens  
Event Planner
