

To Whom It May Concern:

I have known Tracey Bell for a number of years and first had the opportunity to enjoy a number of her shows as a spectator. From the first moment that she walked onto a stage in front of me I was impressed. Tracey has an electric energy and such a powerfully appealing personality that her audiences are always captivated.

I must say that I loved her performances so much that I knew immediately that we would attempt to book her for some of our own shows. Since that time we have worked often with Tracey and each time seems to get better. I have never seen an audience that didn't get caught up in the magic of her act. She is an incredible "Cher", a powerful and nostalgic "Janis Joplin", a stunning and sweet "Marilyn Monroe" and a raucous powerhouse as "Tina Turner". Tracey consistently takes your imagination on a fantastic journey.

Tracey is the ultimate professional entertainer. She is always on time and constantly delivers more than she promises. As a person, Tracey Bell is genuine, witty, engaging and an enormous amount of fun. Although I first met her as a performer, I feel very fortunate to now call her a friend.

Anyone who is lucky enough to book Tracey is in for a great big show! I honestly believe that her performances are like an insurance policy for an event that an audience will never forget. Consequently, we have booked her for a return engagement this July at Whistler. Should you have any questions, please do not hesitate to contact me personally.

Yours truly,
Shout Entertainment
